Professional Summary

I am Samira Mashtizadeh a Web Developer – Python/Django | HTML/CSS/JavaScript | SQL

- Motivated and detail-oriented web developer with hands-on experience in building dynamic web applications using Python and Django.
- Proficient in frontend technologies including HTML, CSS, and JavaScript, with working knowledge of SQL for database management and querying.
- Completed a full-stack project showcasing skills in backend development, database integration, and user interface design.
- Familiar with Java and always eager to learn and grow in a collaborative development environment. Passionate about clean code, scalable systems, and solving real-world problems through technology.

Some of my professional details are: keen about learning new skills, enjoying growing in my web development job and programming skills, not being afraid of facing challenges, being a multilingual, innovative, art-friendly, paying attention to details, commitment, hardworking and good communication skills.

Work Experience

Full-Stack Developer (Freelance)

Clinic Website Project – *Completed*
Self-Directed Project – 2025

- Designing and developing a complete website for a medical clinic using **Django** (backend) and **HTML/CSS/JavaScript** (frontend).

- Implementing features like **appointment booking**, **contact forms**, and **informational pages** for doctors and services.

- Handling **database design and management** using **SQL (PostgreSQL/MySQL)**.

- Managing deployment process, hosting, and performance optimizations.

- Collaborating directly with the clinic (if applicable) to gather requirements and tailor the solution to their needs.

Personal Project

Learning-Based Full-Stack Web Application – *Completed*
Self-Initiated – 2024

- Built a full-stack web application from scratch during the learning phase using **Python, Django, HTML/CSS**, and basic **JavaScript**.

- Applied fundamental web development practices including **user authentication**, **CRUD operations**, and basic responsive design.

- Gained practical experience in **project structuring**, **MVC pattern**, and version control with **Git**.

Education

Certificate in Programming and Web Development | 2024 January 6, Saturday

- Python, Django, HTML, CSS, JavaScript, and SQL

- Focused on full-stack web development and real-world project implementation

Certificate in Advanced Python | 2024 November 16, Saturday
Authorized Training Center vizhegan business school | Ahvaz, Khuzestan province, Iran

Credential ID: **9404915**

- Certificate authenticated by the **Ministry of Education**

- Covered Advanced

Bachelor of Arts in English Translation | 2020 September 30, Wednesday
Jahad University | Ahvaz, Khuzestan province, Iran

Credential ID: **1121001131**

- Strong foundation in academic and professional English

- IELTS Band Score: **7.0**

Technical Skills

Languages & Frameworks:

- Python
- Django (Full-Stack Web Framework)
- Java (Basic understanding)
- HTML5
- CSS3
- JavaScript (Basic to intermediate)
- SQL (Database queries & design)
- Rest framework

Web Development:

- Full-Stack Development
- Responsive Design
- User Authentication (Login/Logout/Register)
- CRUD Operations
- Form Handling
- URL Routing & Templating in Django
- Frontend & Backend Integration

Tools & Technologies:

- Git & GitHub (Version Control)
- VS Code (or any IDE you use)
- PostgreSQL / MySQL
- Bootstrap (if used)
- AJAX (basic understanding from Django project context)
- Debugging & Console Tools (Browser DevTools)

Project Work:

- **Built personal full-stack web application (self-directed learning)**
- **Currently developing a full-stack clinic website (real-world project)**

Professional & Soft Skills

- Fluent in English (IELTS 7.0)
- Strong written & verbal communication
- Self-driven and fast learner
- Capable of remote collaboration and requirement gathering
- Able to explain technical concepts clearly (thanks to language background)
- Strong attention to detail and problem-solving mindset

Computer Skills

Although as my major I pursued English Translation Studies I have excellent computer skills.

- Proficient in **Microsoft Office Suite**:
  - o **Word** – Document formatting, styles, tables, templates
  - o **Excel** – Basic formulas, data entry, charts, formatting, filtering
  - o **PowerPoint** – Slide design, animations, transitions
- **Windows OS** – Confident user of Windows 10 and 11, system settings, file management
- **Internet & Email** – Web research, Gmail, Outlook, managing files via Google Drive
- **Typing Skills** – Fast and accurate typist in both English and Persian
- Familiar with **PDF tools** (Adobe Acrobat, Foxit) for editing, creating, and converting
- Experience with **file compression** tools (WinRAR, 7-Zip)
- Working knowledge of **printing/scanning tools** and device setup
- Comfortable with **remote collaboration tools** like Zoom and Google Meet
